

Chopard celebrates Year of the Dragon with exclusive collection

Chopard marks the Year of the Dragon with an exclusive design

Chopard has unveiled a Year of the Dragon Exclusive Eyewear Collection in collaboration with De Rigo.

The collection features one pair of glasses for men and one pair for women, with only the menswear frame available in travel retail.

The Men's Model (Model: VCHL38J) takes inspiration from the elegance of Chopard's L.U.C timepieces. Crafted with natural buffalo horn and precious wood, the glasses embody a classic and enduring style and feature a titanium front. The glasses are presented in a wooden gift box crafted with traditional mortise and tenon craftsmanship to offer a bespoke touch.

The full collection has been released in the domestic market.
