

# Oliva releases Limited Edition Nub Humidor 2020

Containing a selection of four different Nub cigars, all 1,500 cabinets of the limited-edition sold out pre-launch and will soon be available in cigar shops across the globe

This Fall, Oliva released an exclusive Limited Edition Nub Humidor 2020. Containing a selection of four different Nub cigars, interest in this humidor has been overwhelming. All 1,500 cabinets sold out even before the launch took place and will soon be available in the cigar shops of Europe, Asia and Africa. If interested, please contact your local distributor.

In 2008, Nub became the first brand to produce cigars in the 4x60 size. The introduction of this innovation quickly marked the birth of an icon in the world of cigars and functioned as the first robusto with a ring gauge of 60 and a length of 101 mm.

Thanks to its unique structure, the Nub has become a favorite among many cigar connoisseurs. It has the ability to offer the enjoyment of a Churchill right after being lit. Because of its size, the Nub stays cool throughout its smoking time. Despite being relatively short, the Nub still offers 40-50-min of smoking pleasure. Although short in size, these fully hand-rolled cigars provide the same smoking time as that of more conventional sizes and styles.

The Limited Edition Nub Humidor 2020 contains 24 Nub cigars:
