

SKROSS ready to take on TFWA, Cannes

The SKROSS team come to TFWA, Cannes locked and loaded with products for every tech-savvy globetrotter

SKROSS looks forward to welcoming delegates at TFWA World Exhibition in Cannes at Stand #L60-Green Village. This year the extended team will include Chris Jennings, who joined the SKROSS team in September as International Business Development Manager with a particular focus on the inflight business.

Sam Gerber, Managing Partner at SKROSS, has been elected Vice-President Corporate of the TFWA Board

Further reason to celebrate, Sam Gerber, Managing Partner at SKROSS, has been elected Vice-President Corporate of the TFWA Board. Gerber shares, "Working as part of an association, I believe there are two things you need to bring – purpose and passion. The industry is full of passionate people all with a common purpose of growing the trade, and it's great to be part of a team of like-minded professionals at TFWA who share a similar vision of driving the market forward."

The stand will showcase best-sellers, such as the world travel adapters and RELOADs and a preview on upcoming products including new power banks, country travel adapters, cables and chargers.

The first 100 Ambassadors who will visit us at our booth will receive a gift.
