Marshall Retail Group has announced the opening of two food and beverage concepts at Ronald Reagan Washington National Airport (DCA): The Café at DCA. The two locations are now open at both the north and south security checkpoints in Terminal 2.

The Café at DCA serves travelers coffee beverages proudly made with La Colombe coffee, in addition to heat & serve sandwiches, a variety of souvenirs, books, magazines and more. Each café also supports Cameron's Coffee & Chocolates, a local business that employs adults living with intellectual disabilities through its Every1 Can Work initiative. The Café at DCA offers a selection of products from Cameron's, including chocolates, caramels and pretzels. In addition to serving coffee and delicious food, The Café at DCA utilizes its small space to provide travelers with the very best travel essentials, making it a one-stop-stop for visitors.

"The Café at DCA provides a custom-built amenity for passengers using the new security checkpoints in Terminal 2 at Reagan National," said Jaimini Erskine, vice president of marketing and concessions for the Metropolitan Washington Airports Authority. "It is also a welcome addition for non-ticketed visitors who now have access to more food and refreshments when dropping off or picking up airport travelers."

Designed to reflect the classical architecture found around Washington D.C. with a fresh

contemporary twist, The Café at DCA features clean crisp lines and contrasting black and white finishes. An open grid ceiling throughout the spaces adds a feeling of outdoor dining within the building.

“We are so thrilled to launch yet another concept in partnership with the Ronald Reagan Washington National Airport,” said Toby Keir, CEO of MRG and InMotion. “The Café at DCA provides a warm and inviting environment for airport guests to either grab n’ go or sit and relax.”

The opening of both The Café at DCA locations has expanded MRG’s partnership with DCA. MRG also operates Capitol File News, America! and two InMotion storefronts at DCA, with two additional retail concepts forthcoming.

“The Cafe at DCA is a great addition to our evolving retail mix at Reagan National Airport,” said Mike DiCosola, president of MarketPlace Development. “MRG is a valued partner at DCA, and their brands continue to enhance the concessions experience we offer for travelers.”
