

# Nassau's Lynden Pindling Airport to release airport hotel RFP

The winning bidder will design, finance, construct and operate a hotel of three-stars or higher at Lynden Pindling International Airport under a long-term lease

Officials at the Nassau Airport Development Company (NAD) are seeking bidders to design, finance, construct and operate an on-site hotel at Lynden Pindling International Airport.

On January 21, the company will issue a Request for Proposal (RFP) document outlining details required to bid on the proposed airport hotel project. Final proposal submissions will be due on May 24, 2019.

NAD encourages interested parties to consider forming teams to respond to the opportunity. Respondent teams may be assembled in a variety of ways, including through contracts, partnerships or joint ventures.

The winning proponent will design, finance, construct and operate a hotel of three-stars or higher at Lynden Pindling International Airport under a long-term lease.

The proposed hotel must include architectural details that are consistent with or enhance the existing terminal buildings.

The site, northeast of the existing US Departures Terminal building, can accommodate a hotel with

the option to include additional amenities such as meeting spaces, restaurants, a fitness center, and a sundries store.

Vernice Walkine, President and CEO of NAD, said the proposed airport hotel project was an exciting next step in LPIA's continued development. "This Request for Proposals represents an opportunity to build a hotel to service our unique market of domestic and international passengers," Walkine explained.

"An on-airport hotel at LPIA will enhance the experience of the customer and other airport stakeholders by offering convenient accommodations and quality amenities for travelers to Nassau/Paradise Island or for those connecting through LPIA for domestic or international travel."

She continued: "We have built LPIA to the standards of an award-winning airport, with operations efficiency, passenger experience and sustainability in mind. We are seeking proponents who are capable of constructing and managing a hotel to those same standards."

Interested parties are asked to email [LPIAAirportHotelRFP@nas.bs](mailto:LPIAAirportHotelRFP@nas.bs) for more details.

NAD is a Bahamian company owned by the Government of The Bahamas and operated by Vantage Airport Group, a Canadian airport development and management firm.

In April 2007, NAD signed a 30-year lease with the government to manage and operate LPIA on a commercial basis while providing Bahamians with opportunities for business and investment. In 2019, the lease was extended a further 20 years to 2057.
